TODAY'S CHALLENGE

Build a Bridge!

Learn. Build. Solve.

DISCOVER

TECHIDS

Why Do We Need Bridges?

Bridges help us cross gaps!

RIVERS

ROADS

Bridges help people get safely from one side to the other.

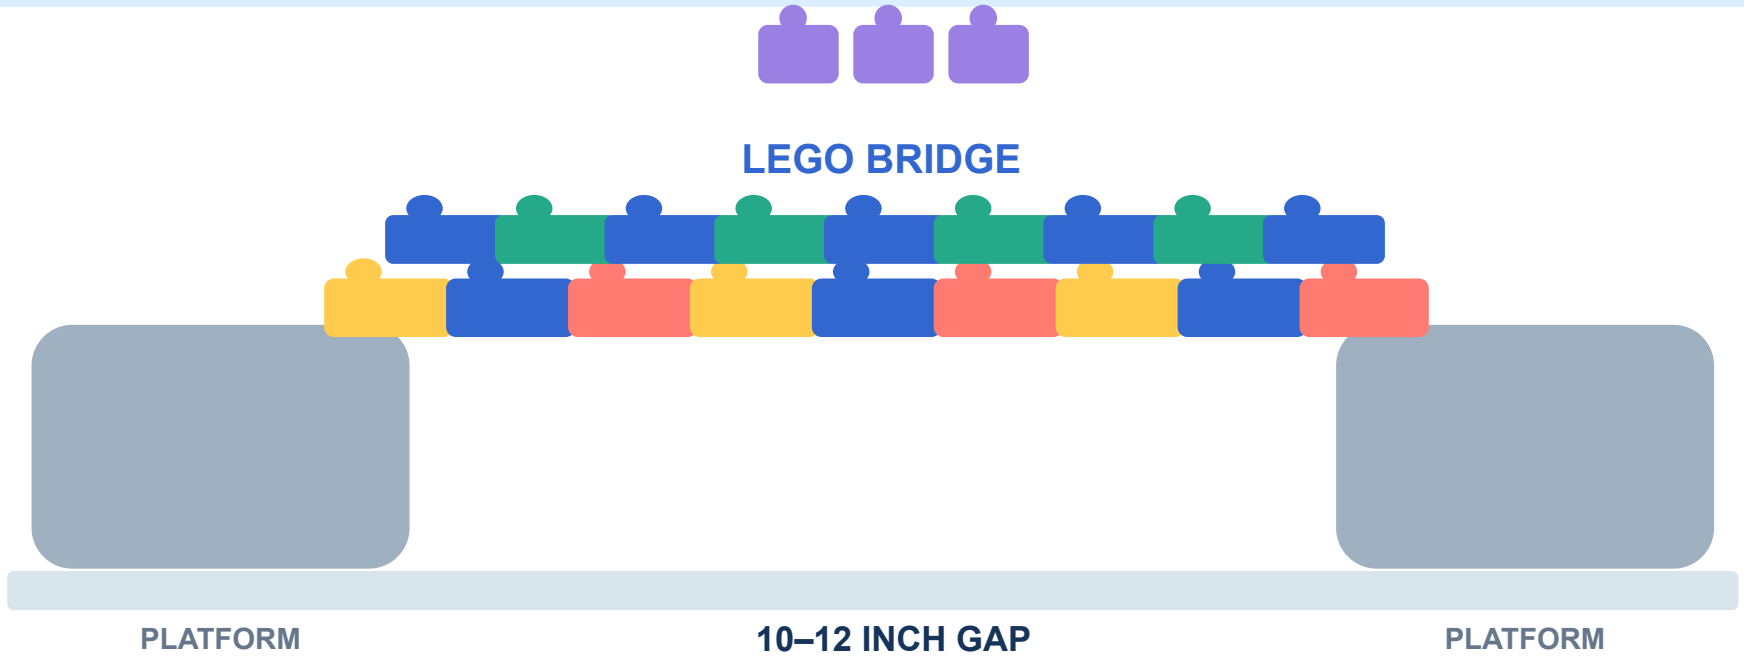

QUESTION: Have you ever crossed a bridge?

YOUR CHALLENGE

TECHIDS

Your Mission: Build a Bridge!

Connect the two platforms with LEGO bricks.

SPANS THE WHOLE GAP

HOLDS THE MOST WEIGHT

YOU CAN DO IT!

TEAM CHALLENGE

TECHIDS

Ready, Set, BUILD!

Follow the rules. Then the 15-minute clock starts!

01 **15 MINUTES TO BUILD**

02 **STAY WITH YOUR TEAM**

03 **SHARE IDEAS**

04 **START WITH YOUR BRICKS**

05 **ASK FOR ONE SCOOP AT A TIME**

06 **BRIDGE THE GAP**

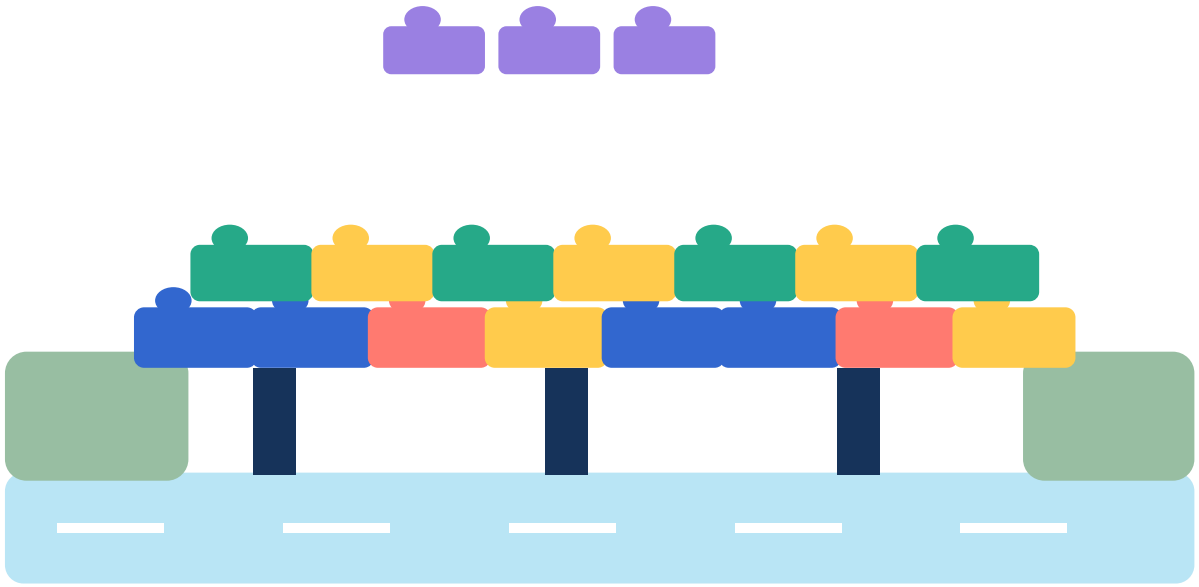

STOP BUILDING WHEN TIME IS UP!

TIME TO TEST

TECHIDS

Test Your Bridge!

How much weight can it hold?

LET'S THINK!

- ? What made it strong?
- ? What was tricky?
- ? What would you change?

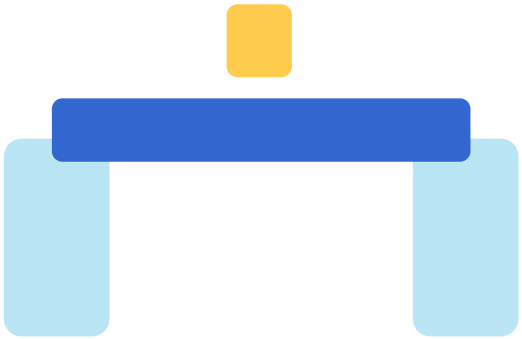

ENGINEERS TRY. TEST. LEARN. IMPROVE.

THE BIG LESSON

TECHIDS

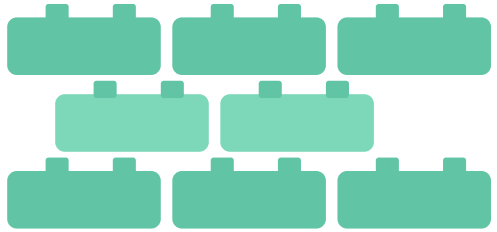

What Makes a Bridge Strong?

Smart building helps a bridge carry more weight!

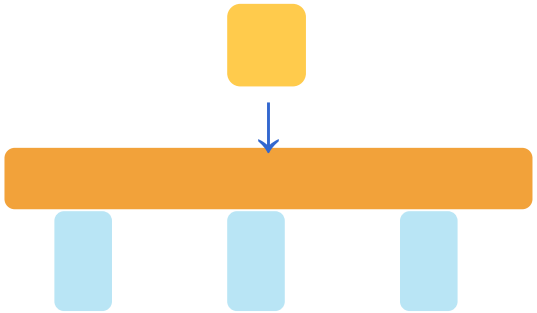

ADD SUPPORTS

Hold up the bridge!

CONNECT BRICKS

Lock the pieces together!

SPREAD THE WEIGHT

Make the bridge steady!

ENGINEERS BUILD → TEST → MAKE IT BETTER!

A strong bridge starts with a smart idea!
